PERSONAL PROFILE

I am motivated, hardworking student looking for a job, placement, and another industrial experience. I am currently half way in my second year of studying Computer Science, but already studied this field of industry at secondary school. I have used various languages, operating systems, technol-ogies and tools. Besides that I'm familiar with real industrial workflow, agile methodologies and version controls, thanks to previous internships and group projects. I am eager to be challenged in order to grow and further improve my IT skills. I like to be creative and love to turn on-paper ideas to something present.

SKILLS

WEB DEVELOPMENT

HTML, CSS, JS
Django (Python), Laravel (Php), Node.js, MySQL

SOFTWARE DEVELOPMENT

C++, C, Scripting Languag-es, Assembler

WORKFLOW

Version Control (GitHub), Agile Development

DESIGN

Photoshop CC Certificate, also familiar with Illustrator and Xd

OTHER

Microsoft Office Suite, Linux, CCNA Routing and Switching, Capacity for working in a team environment, Adaptability

EDUCATION

BSc. COMPUTER SCIENCE

16/09/2019 - PRESENT COVENTRY UNIVERSITY

- Introduction to Artificial Intelligence
- Software Engineering
- Operating Systems and Security
- Certified Adobe Photoshop (ACA)
- All first class grades.
- Received an offer to enrol into Global Leaders
- Programme for a high achieving students.
- Theory of Computation
- Advanced Algorithms
- Data Science
- Big Data Programming Project
- Programming and Algorithms
- Software Design
- Mathematics for Computer Science
- Object Oriented Programming
- Computer Architecture and Networks
- Database Systems
- Computer Science Activity Led Learning Project 1 and 2
- Developing your Personal Entrepreneurial Skills.
- All first class grades except Database Systems (2:1).

INFORMATION AND NETWORK TECHNOLOGIES

01/09/2015 - 21/05/2019 SS OF ELECTRICAL AND TECHNICAL ENGINEERING

Graduated from modules:
- Slovak Language and Literature: A
- English Language: A
- Theoretical Part of Vocational Section: B
- Practical Part of Vocational Section: A

RELEVANT PROJECTS

DOMESTIC REPAIRS WEB APP
MADE IN NODE.JS KOA

Website application for an unknown company that specialises in the repair of domestic white goods such as washing machines and cookers. It provides users to upload their faults and technicians to assign them to their timetables later on. It is a personal project.

MULTIPLAYER ROGUE-LIKE GAME
MADE IN C++

Game, inspired by Doom (1993), rendering was made only with characters, since we were not allowed to use graphics. It was a group project. My role was to take care of AI and general movement logic.

SVEN
MADE IN PYTHON, DJANGO

Chatbot linked with Minecraft in-game chat and discord. Intelligent chatbot, which serves as a helping hand for Minecraft beginners. It was a group project. My role was to build an API, that transferred data from database with item descriptions and other useful data.

SERVICE RECORDS WEB APP
MADE IN PHP, LARAVEL

Another website application for employers to check and monitories service records of their employes. It provides employees to assign their name and status of work to particular machines in the industry, so employers could see who was working on that concrete machine, what was doing and when. It was a personal project for a company in my country. This project has been also used as a subject of my Practical Part of Vocational Section.

EMPLOYMENT HISTORY

BETA-TESTER
2 WEEK LONG INTERNSHIP
2017, PRESOV, ELCOM, S.R.O.

Main fulfilment of my job was to test applications. I have learned how to work with version control in a deeper sense and how to report bugs. Had a chance to look at my first real industrial experience and how it goes in the office.

SALES ASSISTANT
2 WEEK LONG INTERNSHIP
2016, SVIDNIK, AUDIO VIDEO CENTRUM

Maintenance of computer components, talking with customers and coming up with solutions for their problems.

HOBBIES & INTERESTS

FOOTBALL
